

Brand Identity Assets

1. Our logo

2. Our tagline: ...“From Farm to Flavor — Empowering Farmers, Feeding the Future.”

3. About The CEO -

John Uka O. is a passionate entrepreneur with a background in Accounting from Michael Okpara University of Agriculture, Umudike. As an executive founding member of the MOUUAU Entrepreneurship Club, he honed his passion for agriculture while leveraging his financial expertise to drive business success.

With more than two years in the financial sector, four years in startups, and extensive agribusiness training, he has developed strong financial management and leadership skills. Growing up with farmer parents, he witnessed the struggles of rural farmers in accessing fair markets. This inspired him to start U-Agro Services, an innovation tackling post-harvest losses through eco-friendly packaging and innovative sales strategies—boosting sales by 40% and reducing waste by 20%.

His mission is to transform local agricultural products into globally competitive goods, ensuring farmers earn what they truly deserve. Through entrepreneurship, I am committed to driving sustainable change in Nigeria’s agribusiness sector.

4. About the product:

Nigeria’s local snack industry faces major challenges—poor packaging, low market appeal, and limited distribution—leading to 30% post-harvest losses and increased dependence on imports. Farmers and local producers struggle to earn fair value for their produce, while consumers miss out on the rich variety of high-quality, homegrown snacks.

Unikrative C-enterprise through U-Agro Snacks is changing the game. By introducing eco-friendly, attractive packaging and strategic market positioning, we reduce food waste by 20% and boost sales by 40%, making local snacks more competitive both locally and globally. Our solution empowers rural farmers, enhances value addition, and bridges the gap between local producers and high-demand urban markets. We have test-run thousands of our prototypes in different states of Nigeria, some West African and European countries with a overwhelming positive response.

Beyond sales, U-Agro Snacks is a movement—one that preserves Nigeria’s agricultural heritage, promotes sustainability, and creates economic opportunities. We are redefining how local snacks are perceived and consumed, proving that Nigeria’s flavours can stand tall on the global stage.

Mission:

Unikrative C-Enterprise's mission is to modernize agriculture and empower rural small-scale farmers, bridge market gaps, and showcase Nigeria's agricultural wealth to a global audience.

Vision:

To become a leading brand delivering innovative, high-quality local snack products that meet global standards while promoting Nigerian creativity and value.

Who we are (what makes us different):

U-Agro Snacks is redefining Nigeria's local snack industry through eco-friendly packaging, premium branding, and direct market access for rural farmers. 1. Sustainable Packaging Innovation: Unlike traditional plastic wraps, we use biodegradable, eco-friendly packaging that extends shelf life while reducing environmental waste. This helps cut post-harvest losses by 20%, ensuring farmers earn more. 2. Market Expansion & Value Addition: We transform raw farm produce into variety, high-quality, well-branded snacks, boosting sales by 40% and making them competitive in local and international markets. 3. Technology-Driven Distribution: Using AI-powered analytics, we connect rural farmers directly to urban and global consumers, bypassing middlemen and ensuring fair pricing. Market Validation: Nigeria's snack industry, valued at \$5 billion (PwC Nigeria, 2022), suffers from 30% post-harvest losses due to poor packaging and distribution. Consumer demand for premium, homegrown snacks is rising, as seen in the increasing popularity of export-ready African food brands. By merging innovation, sustainability, and strategic market positioning, U-Agro Snacks is not just selling snacks, we are building a globally recognized Nigerian snack brand while empowering farmers. The future of Nigeria's snack industry is here.

Product Description:

We bring to consumers high quality, organic, direct from farm produce with no additives with the highest assurance from certifying bodies like NAFDAC and others which is ongoing.
